Re: Local Option Authority

ACT Coalition,

I am excited about the opportunity and empowerment that is possible by activating a right for a Local Option Authority in our communities. No one is going to change things for us; we have to do it for ourselves. With ACT, each Montana town has the chance to DIRECTLY affect change and have a say in what their community needs – from street lights to public safety to state-of-the-art recreational facilities – it is up to us! Our terms, our vote – give US the power. This is why I support local option authority.

Sincerely,

Maisie Sulser
